

“The only RESTAURANT
in THE WORLD that offers
MILLE-FEUILLE KATSU
in MULTIPLE FLAVORS”

Being the only restaurant in the world that offers mille-feuille katsu in multiple flavors, Kimukatsu's specialty lies within layers upon layers of scrumptious and juicy chicken and beef slices wrapping different flavors and fillings; original, negi, garlic, black pepper, and the most popular melted cheese filling – every one of them perfectly complements the delicate umami flavors..

Kimukatsu have frequently been featured in popular Japanese magazines and TV shows, making Kimukatsu the hottest restaurant to go, and now we're bringing this popular restaurant to Indonesia because dining at Kimukatsu is an entirely different experience; from the smell of ground roasted sesame mixed with Kimukatsu's specialty sauce, to the fresh crunch of the crispy breadcrumbs coating the signature layered Katsu, Kimukatsu invites food lovers to discover a new sensation of flavors, at a reasonable price.
